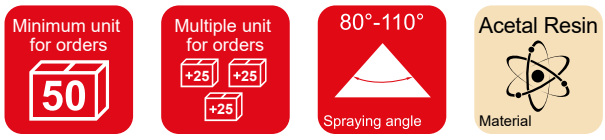
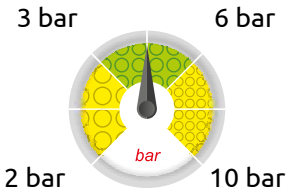
HCT/HCQ - FFT/FFQ

INDUSTRIAL NOZZLE





- Ugelli a ventaglio o a cono per nebulizzazione
- Adatti per applicazioni industriali
- Stampato in resina acetalica, ad alta stabilità chimica, che conferisce ottime caratteristiche di durata
- Disponibile con attacco flangiato o con filettatura da 1/8" NPT e 1/4" NPT
- Per misure non presenti a catalogo contattateci

- Spraying fan or cone misting nozzles
- Suitable for industrial applications
- Made of molded acetal resin, a polymer ensuring high chemical stability and an exceptionally long useful life
- Available with flanged connection or 1/8" NPT and 1/4" NPT thread
- For sizes not in the catalogue, please contact us

- Boquillas en abanico o de cono para la nebulización
- Aptas para aplicaciones industriales
- Moldeado en resina acetálica, material con alta estabilidad química, que otorga excepcionales características de duración
- Disponible con conexión embridada o rosca de 1/8" NPT y 1/4" NPT
- Para las versiones que no figuran en el catálogo, póngase en contacto con nosotros
